# TOMRA T70 TriSort™

Good things come  
in threes

## Recycling that's streamlined and simple

Create a no-fuss experience for customers and staff by accepting up to three types of recyclables in the same machine, including refillables. The TOMRA T70 TriSort does it all, from sorting to storage – and faster than ever before – thanks to TOMRA Flow, our 360° recognition technology.

## Small space, big impact

See just how much you can get out of 2m<sup>2</sup>: accept, sort, compact and store all in one place, and keep more store space dedicated to sales.

## Store more than ever before

Accept the most volume in the smallest footprint with a 50% increase in storage capacity over TOMRA's previous model, thanks to dual compactors and bin-rerouting function.

**TOMRA T70 TriSort**

So many ways to make it fit your store

From the user interface screen to the design on the machine's exterior to the reprogrammable sorting options, everything is customizable to create the recycling program that works best for your store.

TOMRA T70 TriSort

Digital tools extend your machine capabilities

Integrating your T70 TriSort with the full range of digital products helps you remotely monitor your RVM, maximize uptime, and engage with customers inside and outside your store with the myTOMRA app.

# LET'S PUT RECYCLING TO WORK FOR YOU

TOMRA's vision is Leading the Resource Revolution, helping to manage our planet's precious resources, today and tomorrow.

We believe that Clean Loop Recycling is the simple solution for keeping used beverage containers out of the waste stream, moving valuable materials from single use to multiple use.

As a retailer, you're at the heart of Clean Loop Recycling. You play a critical role at the point where consumers buy and return their containers.

Let's put recycling to work for you, and together we can maximize the positive impact for your customers, for your business, and for the planet.

When you partner with TOMRA, your business can experience real benefits:

A great recycling experience for your customers

Be prepared for your customers when they're ready to recycle with tailored solutions, industry-leading technology and powerful digital tools that make their experience efficient, easy and engaging.

Efficient operations for peace of mind

Keep your store running smoothly with a reverse vending system that's accurate, secure and efficient and service that's responsive and ready to get you back to recycling anytime you could use a hand.

A smart investment for long-term benefits

Choose a full-service partner with a global scale, extensive experience, high quality and continuous improvements that will keep your reverse vending system working hard for your business for years to come.
